

DRP

DRP is a system for automation of Due Diligence processes for Drueker & Co firm engaged in Merging and Acquisition business (<http://www.drueker.de>). The system consists of a set of applications providing a full complex of solutions on data preparation, processes management and further analysis of the results. The basic requirements to system:

- Safety. Since the companies with millions of income can have information leak which is critical therefore access certificates, multilevel access monitoring systems, authorization and encryption are used to maintain the high level of safety in the system.
- Availability. For maintenance of continuous process the system provides 24/7 access.
- Reliability. The system provides data transaction integrity at any moment.

In-house

The application for preparation of projects at the initial level provides for data gathering, management and analysis. It allows to collect all necessary information at the initial level to prepare a project for publication.

Technologies:

.NET WinForms (the desktop application), J2EE (the application server), MSSQL (the database server)

DRP portal

The project control system is web application, which is an entry point for all users in the process of work on the project. It contains dynamic management of project servers (by virtue of information, content can be included in the project, the system is enabled to distribute data to several servers), user management and basic system administration.

Technologies:

Web 2.0, J2EE (the application server), MySQL (the database server)

DRP Dataroom

This is a web application ensuring functionality of the above-mentioned project. It accommodates the following functionality:

- Gathering information on companies, process participants (with complex multilevel workflow)
- Organizing access control to physical rooms with data, printing documents for such rooms
- Q&A process
- Exporting information to generate final reports
- Service functions (search, task management etc.)

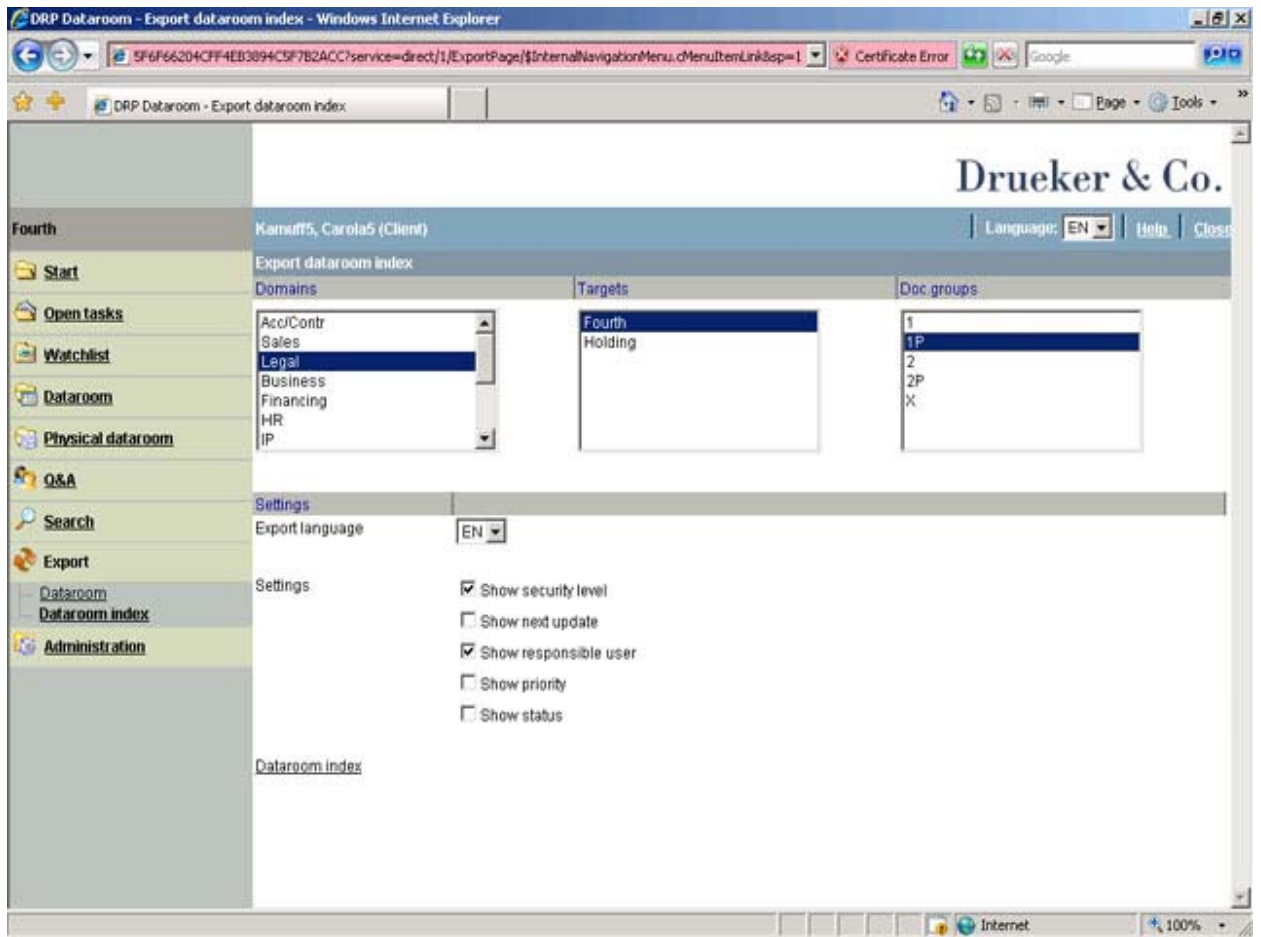

Technologies: Web 2.0, J2EE (the application server), MySQL (the database server)

Customer: **Drueker & Co.**

Year: 2005-2006

Mainform

The screenshot shows the DRP Dataroom web application in a browser window. The browser title is "DRP Dataroom - Dataroom view - Windows Internet Explorer". The address bar shows the URL: <https://193.138.108.120/drpdataroom/app;sessionid=71455f6f66204c9f4eb3894c9f7b2acc>. The page header includes the "Drueker & Co." logo.

The interface features a navigation tree on the left with categories like "Start", "Open tasks", "Watchlist", "Dataroom", "Overview", "History", "Filter", "Target", "Domain", "Priority", "Status", "Responsible", "Next update", "Watchlist", "Open tasks", "Physical", "Q&A", and "Search".

The main content area is titled "DRP - [DRP Storage]" and has tabs for "Client Users", "Release steps", "Responsibilities", and "Q&A Settings". The "Release steps" tab is active, displaying a table with the following data:

Name	Login	Company	Country
Barakhaev, Alexander	Bara4653	Fourth Holding	Germany

Below the table, there is a "Record:" section with navigation arrows and a "1 of 1" indicator. A "Domains and targets:" section contains a grid of checkboxes for various domains and targets across different companies.
